12 October 2005

Dear Lindsay

Paulo Quadros, 9 Station road, Strathaven ML10 6BT
Enhanced Use of Complementary and Alternative Therapies

Please find **attached** a paper given to me by a local constituent but also well known in the above field.

I would be obliged if he could have a further conversation with Health Department Offices with regard to his proposals on use of alternative therapies but also the provision of wellbeing centres which offer both conventional and unconventional medicine and how these can link with the new NHS and be supported by the NHS.

Yours sincerely

Andy Kerr
